The Austrian treaty follows exactly the same outling and in many places is identical with it except in name. Certain specific clauses which applied only to the German are, of course, omitted and certain new clauses of particular applicability to Austria are included, es-pecially as regards the new States created out of the former Austro-Hungarian Empire.

Hungarian Empire.

Austria is left by the treaty a State of six million people inhabiting a territory between fitty thousand and sixty thousand square miles. She recognizes the complete independence of Hungary, with a population of fifty million, and two hundred and sixty thousand square miles. Austria agrees to accept the League of Nations covenant and labor charter and to renounce all her extra European rights, to demobilize her whole nava and aerial forces, to admit the right of trial by Allied aird associated powers of her national and military officers guilty of violating the laws and customs of war and to accept detailed provisions similar to those of the

Some of the soldier boys from this district stayed over their, and their crosses—row or row—stand as mute ciclerce of the great fact that love of freedom is universal and girdles the world with breese ever ready to respond to the stirring call to overthow yrants and despoilers of women. Their sacrifice will never be forgotten even in the mergymaking of Veterans' Day.

Alive and Busy City.

Alie and Bay City.

The many visitors who will come to Belteville tomorrow will find a change from the usual closed-up holiday city with a business street dead and empty. This year the merchants will keep open and thus an added attraction will be afforded lady visitors who can shop and "look around" to their hearts' content. The Intelligencer will also be issued and the news of the day, covering the wide world, will be served up piping hot so that all when rune a walk may read and not love a whole day's news in a lifen life tiffic when there are big things happening daily and a feeling that atthere at Eng postibilities for the news kettle boiling over at any minute with big happenings "over here" or "over there."

Fling Out the Flags.
President R. D. Ponton of the G.W.V.A. expresses his pleasure at the decision of the merchants to keep their stores open, realizing that this enterprise will be appreciated by the visitors as well as adding more outside money to local circulation. The Persident would appreciate it if every householder and business man would hang out flags and busing and make Believille bright and joyous in appearance—automobiles also could be decorated to add to the general color scheme of thanksgiving

Long-Wearing Stockings for Active Boys

The rough and tumble games in the school-yard are mighty hard on stockings. Boys will play hard, so we make a stocking specially for them—the Buster Brown

This stocking has a two-ply leg and three-ply heel and toe. It is knitted from extra-long yarn—spun by ourselves to make sure it is right.

Special training is necessary to knit Buster Brown quality into hosiery. We have spent years training our employees to knit Buster Brown Stockings.

Because we do all these things, you'll find them longer-wearing. You'll be pleased to see how seldom they appear in the mending basket. You'll find the cost of clothing your boy lower.

Ah! There thou art, thou tiny king, Earliest flower of the spring:
From thy damp and mossy bed.
Rising sky tily purple head;
Thou dost bouch a spark in me,
Little violet, I love thee.

Often have I pass'd thee by, Tiny flower, didst heave a sigh? Looking for great things ahead, I forgot thy mossy bed. Such our natures, such are we, Little violet, I love thee.

Violet, when I talk with thee, I feel that thou canst hear and see; Tell me, tell me, doot then know, When I am mear, and when I go? Sweetest flower, wild and free, Little violet, I love thee.

If my tongue thou canst not speak, Or I thine one thing is sweet. Something draws my soul to thine. Touches something that's divine, Both of one great family, Little violet, I love thee.

Soon into the leafy bed,
Thou wilt drop the little head,
Soon again thou wilt return,
One thing sure, from thee I learn,
All life must immortal be:
Little violet, I love three.

The wro LONDON, June 4—(A.M.)—Derby Day, the world's greatest sporting event has returned after leaving a blank on the British calendar fo lour years. With early morning the population began to progress to-ward Epsom Downs comparable with the migration of the tribes of Israel. If today's Victory Derby, as it is called, reaches the high water mark If today's Victory Derby, as it is called, reaches the high, water; mark there will be two hundred thousand within sight of the race track. The people are travelling in trains, busses, delivery wagons, donkey carts, on borscheck, on loot and by airplace. The hilling and Queent will be there. The only element lacking is the uncertainty about the big race. There will be doursed sattern, and adopt black? Earlier has long been considered a sure thing, although Sir Walter Gibby's Whiskey Mingaste will be a strong continder, and first per Walter Lacking. Beaches and been will be a strong continder, and first per Walter Lacking. Beaches are been this racer is owned and trained by Lady Torrington. The King's stable had nothing good enough to start in the classic event.

Consecon Fisherman Murdered Dead Body Found In Road

was revealed in the finding yesterday morning of the body of Randal Clarke, a fisherman, about fifty years of age, on the road near Consecon, Prince Edward County, shot through the heart.

Clarke was engaged in fishing operations on Consecon Lake and was a member of the fishing colony which covers the beach with huts and small fish houses. When last seen alive he was at Consecon village on Monday evening, and is said to have left that place with about one hun dred dollars in his pocket, the proceeds of sales of fish. He was never orea domers in no boeste, tue protected in Section 18 was after seen alive again alter disappearing down the lonely road leading to the beath. Bis, dead body was lound at live o clock. Teachy morning by John Weckes, who was taking milk to the factory. The body was lound lying on the road about one mile south of Consecoo, death baving resulted from several builet's words, one of which passed through the beart, another shattering, an arm.

It is said that shots were heard in that locality shortly after Clarke left Consecon for the beach about nine o'clock

This will not only be a tribute to be an a well of the great and glorious service and heroism of all the mursing sisters helping the Allied cause during the war,

The body of Edith Cavell has been brought back from Belgin receiving the nation's homage and lying in state in Westminste Abbey, now rests in the place where her heart was always, her bon town of Norwich, England, where a grass-covered mound in the of glorious, unquenchable spirit has attained, in her triumph over the Hur brutes whose bullets only marred her body to release her bright spirit to be forever more an inspiration to the best and brightest of good woman

LAMENTATIONS FROM GERMANY

That Germany would rend the high heavens with her howls o anguished rage over the peace terms was to be taken for granted, says the New York Globe. What else could she do to "save her face"? Her rnment having steadfastly told the common people that the Allies government navung steadnastly, told the common people that the Allies did not win the wax, but that both sides agreed to a peaceful settlement, must stand-convicted of falsebood if it does not protest energetically agalact any terms which imply that the menting at Versailles was not on an again footing. No settlement could have been devised in any way justly or fractosolate to the Allies which would not have been met with this justly or fractosolate to the Allies which would not have been met with this told the property of the pr

ie well-staged-managed roar of protest.

The danger is not that Germany will not sign, but that after signing she will repudiate her agreement on every point where she thinks it pos-sible to do so. It is doubtless with this purpose in mind that the Sparta able to do so. It is doubtless with this purpose in ming that the sparra-cides are urging the Ebert represeptatives to sign at once and have done with 45. From their frankly Betabevist point of view this peace may be made. a rejection of Drest-Libroxa-with a new actor injite is do of con-queror and the former player of that part now representing the poor vic-tionable makes sensorl reservations, but, with back to the wall, agrees The Aller, however, have no lost their senses we may be a be a beginning to the well, agrees for the moment to anything. The Allies, however, have not lost their senses; we may rest assured that this possibility is being considered. Marshal Foch is a highly competent sheriff if it becomes necessary to attach the belonging of the debtor.

MUNICIPAL COUNCILS AND HIGH PRICES.

Canada is now in the birth pains of Reconstruction—a period of in dustrial unrest, social dissatisfaction and high cost of living—and every municipality in the Dominion is affected. This means that each municipa il, as the elected representatives of the citizens, have a grave

council, as the elected representanties of the clusters, may a grave ex-posedibility at this moment, and the question that must be asked by every junyor and alderna is—what is our duty in this crisis? The difficulty is atta to if as as the responsibility of the municipal council is concerned the issue is consenhat clouded. The Minister of Libers, in a communication, dated May of to the City Council of Mont-Lator, in a communication, gaten may 6 to the carry council or atomi-real, states very clearly that under Order in Council, P.C. 3069, the re-sponsibility of controlling prices rests largely with the local councils. The councils have so far ignored this Order-in-Council because they refuse to recognize a responsibility that most of them consider as essentially belonging to the Dominion authorities. In the meantime the abnormal ices of food; though the war is over, give no signs of coming down ion shows that thie high cost of co root of the industrial unrest of this country.

Whatever authority is legally responsible for the control of foor

ces there is no doubt about the moral repsonsibility of the municipal ancils to the citizens in seeing that everything possible is being done

connects to the citizens in seeing that everything possible is being done to ameliorate the present living conditions of their respective communities. It will not do to merely give the denial to the Minister of Labor. Boddy the citizens was anomething more definite.

If this then is the position the municipal councils cannot get together anyticing quickly and find out exactly where they shand in this interest of the welfare of the people, and it is evidently with this idea in similar that the executive of the Union of Canadian Municipalities is serranging the programme for this year's convention. That is, the meeting will be a conference of municipal to the contract of the welfare of the people, and it is evidently with this idea in small that the executive of the Union of Canadian Municipalities is serranging the programme for this year's convention. That is, the meeting will be a fourference of municipal theory and the service of the contract of the well-as the cont industrial unrest, so far as it is affected by high prices

How Everyone Can Help

THE Government has developed a liberal and broad plan to help soldiers settle on farms. It is securing land. It is granting substantial loans. It is obtaining advantageous prices on equipment, implements, building materials and live stock. It is providing agricultural training and farming supervision.

That is as much as the Government itself can do.

But the plan needs more. It needs a com-

Already Provincial Covernments, Universities, Parmers' Associations, and Veterans' Associations are giving valuable assistance. Many methods are strong valuable assistance. Many methods are strong provinced and process than the strong province of the strong valuable assistance. Many successful farmers have willingly worked on Qualification Committees, judge shick have to pass on the applicants. Men who have had experience in lending money on farm property are serving on Advisory Loan Committees, judging land values.

But even such practical assistance is not enough. In each community farmers can be of real service to the soldier settler. They can give him advice about local conditions. They can lend him an extra horse or plough, give him a day's help at seeding or harvest time, and extrad to him that friendly, neighborly, respectful spirit which he deserves.

In this way Canada is performing a double duty. It is discharging, as far as possible, the debt we owe to our soldiers; and it is adding to the country a chief industry a body of competent, willing producers,

The Grocer is the Carnation milk-man. You can get it wherever groceries are sold. Buy it by the case for all aummer. Case of 48 (16 oz.) tall size cans. Directions on every can.

Take This Milk of Course

No need to do without real milk at picnic or camp. Take Carnation along.

Carnation is just pure, whole milk, evaporated to the consistency of cream and put up in tins. Sterilized of course.

But it's real milk. Nothing is taken away but water. By adding water you get fresh, sterilized milk of absolutely safe quality.

Carnation Milk is splendid for camp or summer home. Keeps for months in the can and for several days when opened. You never waste Made in Canada by Carnation Milk roducts Co., Limitee Aylmer, Ont. Seeds and Chicago, U.S.A. (piner and Syringfiel, Ont. Canada Pand Bored Ucrosse 1-18 and 1-47

Take This Milk of Course

No need to do without real mille at picnic or camp. Take Carnation along.

Carnation is just pure, whole milk, evaporated to the consistency of cream and put up in tins. Sterilized of course.

But it's real milk. The Nothing is taken away but water. By adding water you get fresh, sterilized milk of absolutely safe quality.

Carnation Milk is splendid for camp or summer home. Keeps for months in the can and for several days when opened. You never waste Made in Counds by Carnation Milk reducts Co., Limited Aylmov, Ont. any. You are never caught without milk. And you have just the richness you want—as cream for coffee, cereals or whipping—rich milk for drinking—or add more water for cooking.

The Grocer is the Carnation milk-man. You can get it wherever-groceries are sold. Buy it by the case for all summer. Case of 48 (16 oz.) tall size cans. Directions. on every can.

Before you go away write for the booklet "The Story of Carnation Milk." It contains 100 splendid recipes. Sent from our Aylmer office.

The Government will make a serious mistake if it imagines that the will be satisfied with a few deprecatory remarks in regard to these og charges, such as were uttered by Mr. Crerar, the Minister of ulture. The Government must immediately hew to the core of this add, let the chips fall where they may. If individuals have been yof this manipulation of food supplies, then they are traitors to their try, and should be publicly branded as such, says the Herald. Furore, they should be made to disgorge their unholy profits and pay into the public treasury for the relief of the taxes. If, on the other hand, the charges are not founded on fact, then the Government owes it to the men in whom has been placed a sacred trust, to make known the true state of affairs in order that public confidence may be re-

Only a public investigation of the most searching character can meet he needed of the case, and any delay in holding that investigation will be temperated as meaning that the Goernment dare not let he facts be known. The present appailing unrest in the labor world is the direct result of the excessive cost of living and the belief of the workers that this has been brought about by profiteering. Class warfare is had enough in all conscience, but if the class warfare that is now anaflecting itself in t revolution in Canada has been precipitated wholly or in part deliberate disloyalty on the part of profiteers as Mr. Robb rges, then the sooper those profiteers are brought to book and punish-the better. No loyal Canadian can afford to condone acts fraught such menace to the peace and security of the country.

Get Your Digestion in Shape

Many ailments are caused by stomach weakness. Faulty digestion leads to biliousness, sick headache, dizziness, sallow skin and eruptions. Maintain a healthy condition of the stomach and you will get rid of the chief cause of your sufferings. Do not neglect the laws of health. Keep stomach, liver and bowels

But no one who looked on the faces of the Princess and Sir Thule de Bric could doub? that this was our destin-ation. The former stood with eager eyes and parted lips, anxiously scan-ning the long strip of rock-bound coust as unough one was trying to re-cognize something on the shores. The latter watched it with a stern look of affection, as if the memory of the wrougs he had suffered at its hands outbalanced his joy at seeing it again. Then he suddenly laid his hand on the fill of his sword and whipped if

The Maxwell puts pep and profit into hauling work

T costs four times as much to haul with horses as with a Maxwell Truck. It takes three teams to cover the same ground and haul the same load.

And the Maxwell gets there faster and in more business-like style. Gives the rock-bottom cost for hauling.

That's the reason why of the Maxwell's big success in Canada.

Farm produce or furniture, food or feathers, lumber or scrap iron, milk or machinery—the Maxwell is the most economical investment in the Dominion for any freight-carrying problem.

It costs from 100 to 400 per cent less than heavier trucks which may do only ten to twenty per) cent more work. It costs only a little more than lighter trucks and (apart from being completely equipped) does much more work—in less time. It costs acveral hundred dollars less than any other truck of similar capacity.

The Maxwell is made in Canada. It embodies the full fruits of the Maxwell manufacturing acilities and record. A scientific engineering job—not mere assembled mechanism.

Low cost for upkeep means that the Maxwell will earn extra profits for you. And there's rad service available on this speedy ton and a half truck anywhere in Canada.

Take the specification data of any other truck—higher or lower in price. Discuss them in front of the Maxwell chassis.

Then write your check as facts dictate. Chassis, \$1550 - f.o.b. Windsor, Ont.

Indurated Fibreware?

EDDY'S Indurated Fibreware is wood without any of the drawbacks which are commonly associated with wooden household utensils. It is made in one piece without joins to rhoops, it will not splinter, will not fall to piece if dropped, and is impervious to taints and odors. And with all those qualities it has all the lightness and the resiliency of wood.

"What Sugar is That?"

Over the tes cups, women frequently sak this question. Ever since the Sugar-rationing period of 1916, housewives have displayed a keen interest in the subject of Sugar. For it was then that they obtained new light on the source of that Sugar which they had found to be most satisfactory for table use and for preserving.

When Canada wea without any of her usual supplies of raw Cane Sugar from the West Indies, Canadian homes were still supplied with Sugar. On a sking her Crocer where it was coming from, the Canadian housewife learned that this Sugar she was getting—and that she found so satisfactory—was Sugar refined from Canadian Sugar Beets.

DOMINION CRYSTAL SUGAR

Women who use this brand have found it to be all that Sugar should be. And it is with great satisfaction that they realize that a Sugar so fine is "Canadian from the ground up." It is a matter of pride that we are able to produce our own truly Canadian Sugar from our own Canadian-grown Beets.

truly Canadian Sugar Iron our own Canadian-grown Beets.

You should know mays about this product. You should read the whole
lateresting story as fold in our beautiful Eook. "Sugar Iron Beet to Bowl." All
pow the juice is extracted from the Beets; how the juice is partialed by filtering
flow this juice is converted into sugar crystals; and how the sugar Iruna from
hown to white. To read this Book, is just like jaking at tip through cost of sur
modern refeners. In those refiners we do gather from raw Cane Sugar, but
our prids is in the product we make from Canadian Sugar Beets—there is none
hatter.

Most Grocers have Dominion Crystal Sugarin (2) yound bags as well as in the larger bags and barrels. Most Grocers take prode in selling this superior and truly Canadian product. Ask your grocer for it.

Making Saving Attractive

Perhaps you have never been strong on

You COULD save a little, but If you knew you could get 41/2% on every \$4.00 you saved, wouldn't that tempt you?

Well, then—that is what War Savings Stamps will enable you to do.

If you find it hard to save \$4.00 at a time because the quarters slip away un-awares, Thrift Stamps will help you. You can buy a Thrift Stamp for 25 cents, and when you have sixteen, you can exchange them for a War Savings Stamp, for which you will be paid back \$5.00 in 1924.

By doing this you will have become an investor! And you can go on building up that investment every time you save another \$4.00. The odd cents pay the

REWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (visually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buryers will not permit themselves to be deceived by the water glass test.

OF CANADA

The PROFESSIONAL and BUSINESS SECTION has been established to assist professional, business and technical men and women.

Many officers, soldiers, sailors and war workers, who crificed their positions during the war, now desire to cure employment in the occupations for which they have en specially trained.

seen specially remained.

Employers should not wait until increasing business forces them to employ anybody they can obtain, but should look ahead and wail themselves of this insual opportunity to enlist the services of highly 'frained workers, ordinarily segured only with difficulty. On application there can be referred to you, for example:—

ENGINEERS

THE OLD ORCHARD.

When looking backward to the hau Where boyhood's days were spect There's one that always thrills with A tender sentiment.

It is a hillside orchard, filled With gnarled old apple trees, Knee-deep and sweet, red grew, A lure for thriving bees.

In the springtime 'twas a pictur Its wealth of snowy bloom, The air around was laden with Its fragrant, fresh perfume.

For rosy apples, ripe and sweet, Bent low the parent elem, And all our boyish interest Was centred upon them.

Maxwell a car having every luxury except one

HAT luxury is brutish bigness, which means weight, which means a large gasoline tank and filled often, and large tires, and several sets a year.

Maxwell is neither a big car nor a small car. The bigst car made is less than 4 feet longer, and costs around \$15,000 to buy and \$7,000 a year to run.

Most cars are just a foot or a few inches longer. And others are some smaller shorter, lighter, less roomy,

and hence lack the luxury of a Maxwell.

Nor do they cost, on the average, less to run. Gas mileage is very nearly the same. Tire mileage is very nearly the same.

But where Maxwell earned its crowning reputation has been its ability to run and run and never quit.

That means repair bills are amazingly low. You therefore never get mad at a Maxwell-it's the best

friend your pocketbook has. And when you stop to think of all those little points of luxury in a Maxwell you're almost sure to whip out your check book and write a check for one.

The 300,000-all-alike idea behind the Maxwell thus, you see, is sound.

Ram's-horn gently and quickly "feeds" each cylinder of the six by the short 14-inch route to each and gives the same fresh, "powdered" gas to every cylinder alike.

Unless you're driving the new Chalmers some of your cylinders are often getting a rich gas and some a lean gas.

That makes your engine run choppy on occasions.

Longer-Wearing Stockings and Good-Looking, Too

Buster-Brown stockings have the two essentials-long wear and good looks—knitted right into them: You'll find they have a neat, well-fitting appearance—that they are suitable for all occasions. Your boy will be glad to wear them.

And they are harder-wearing because we knit them from extra-long yars. Because we make them with a two-ply leg and three-ply heel and toe. Because our employees have had years of special training in knitting Buster Brown durability into hosiery.

You'll find they'll sult your boy fine. For what healthy boy lan't hard on stockings. They'll give you less mending to do—they'll cost less because of the extra wear obtained. Ask your dealer for "Buster Brown" durable hostery. Sold everywhere.

ARE GOOD TIRES

"I like them because, to me, they have been the most aerviceable, most satisfactory, most uniformly good tires that have come to my notice in all the years I have driven a car.

"I like them because they are the easiest riding tires I ever had on my car. "I like them because they cost less. Not less in first cost, but in actual mileage and freedom from tire trouble and expense.

"More than this, I ride on perfectly balanced tires, because my DOMINION TIRES are fitted with DOMINION INNER TUBES, made by the same experts who make the tires, and made expressly to fit my tires.

As during the early years of the War Americans were too often victims of German propagands, so too many Americans have now become the tool of Sinn Fein revolutionists. As one result the Senate at Washington has been guilty of a gross breach of international good manners. It has take upon itself the liberty of asking the Peace Conference to interfere in the internal relations of the United Kingdom. It assumes, in fact, to dictable the British people regarding the Government of Ireland. Yet the history of Ireland in the last generation discloses nothing so worthy of foreign ntion as the lynchings and burnings at the stake,

astantly disgraced many states in the American Union, Anti-British Irish-Americans have been far too much i Times remarks, Mesars Walsh, Dunne and Ryan have recently left Ire land after making themselves extremely ridiculous. Of THE PLEASANT DAYS OF OLD
Of the pleasant days of old, which as
offen people praise.
True, they wanted all the leturethat grace our modern days;
Bare Boors were strewed with rushes
—the walls let in the cold;
O, how they must have shirord in
those pleasant days of old.

the gallant knights of old, for their valor so renumed the sword and lance, and armore strong, they scoured the country round,

those mighty towers of old! with their turrets, mat and keep, their turrets, most and keep, dungsons dark and deep, dungsons dark and deep, dungsons baron held his coort within the castle hold, d many a captive languished thore, in those strong towers of old.

In those strong towers of oid.
It hose blessed times of old! with
their chivality and state;
lore to read their chronicles, which
such brave deed relate,
lore to sing their ancient rhymes,
to hear their legends told—

Your Battery's Different

There is one part of your new r that is different from all the nt—your battery.

For storage betteries are hemical—not mechanical. chemical—not mechanical.

The time to begin taking care of that battery is the first day that you get your new car. If you do this, your battery will not only last longer, but it will give you better service as long as it is in use.

So when you buy your new car, the very first thing to do is to spens to us for full instructions. We will require your battery, and at the same time will be gied to give you a copy of the tools-ing. "Williard Service and You."

A cool, clean shave

for 1/5 of a cent!

A cool, clean, satiny shave for 1/s of a cent—think of it! At least 500 shaves are obtained from 12 AutoStrop blades, and you often get more than that.

A turn or "two on the strop and your Resor is ready. After shaving you press a little lever, put the blade under the tap, wipe it off, and it is ready for the next shave.

ancit is no niccu to take the race to pleces and assemble it again; simply leave the blade where it is from start to finish. This means time saved in the morning rush—and/a racer blade that's good for aboutsin weeks' drean, cold shaves. There's nothing to learn about the AutoStrop Rator. A han takes as naturally to it as a dack to water, and he gets head-barber results from the start.

The AutoStrop Razor is sold with a money-back guarantee. Every-where-razor, strop and II blades, com-plete; in an attractive case, \$5.00.

BORROWING POWER AND MONEY RATES.

Money rates throughout the world at the present juncture vange n about 3 to 12 per cent, says Bradstreet's. In one set of loans the of interest is the first consideration, while in another the safety of the investment seems to stand almost alone, and in still another group of securities the interest is added to the saving the investment affords. Under this latter head Canada's Victory loans could rightly be classed. Under this latter head Caanda's Victory loans' could rightly be classed. Since the anouscement of the increased traxiation on 'rocones' all the "Wictories" have made new high records on the Torosto and Montreal Skock Exchanges. They have climbed higher and higher until the yield is now above five per cent. on all eight issues. This is a case where the origin of interest must be coupled with the income tax saving in order to strive at the actual yield—it is an illustration of the old nauge that a fromy saved is a presung gained. Underlying this upward movement in Victory quotations lies a story of Canada's stability and her power to ent of the increased taxation on incomes all the

In the call money market of New York interest rates have changed In the call money market of New York interest rates have changed almost hourly in the past two or three weeks. They were considerably below 6 per cent, but they soared to 10, 12 and even 13 per cent. Now they are back to 2 and 8, with a few renewals around 6 per cent. This time the rates have been faced with an eye to carbing unsound speculation. The market was poing strong, too strong in the opinion of the bankers, and the sodden changes in money rates served the purpose of carling a last to the headings chances being taken by speculitors gamble. the market going a point or two still higher.

leg on the market going a point or two still higher.

(There is another act of circumstances governing money rates. These are comparatively new and may in course of a short time cost the Domission of Canada a heavy annual outley. Sweden is starting to borrow in the United States, the funds being required for purchases made in that routery. The rate of interest is appreciant. This is extremely high for a government negotiation and may to a certain extent foreiell the rate which Canada will be chilged to pay when she grash horrows across the birder. The Swedish Government ban is offered at 90%, which makes the actual etrum slighty better than for per cent.

There is a good deal of comment in England just now about the extremely high rate to be paid on the Jo Loan. The argument circles around the belief that rates will settle down to their former levels of 3% of a per cent., which means future generations will be burdened unnecessarily by the high rates that have and are being gold and offered by governments.

HERE'S a welcome to the returned soldier and his bride. May their wedded life be a long and happy one. If she is a "British Bride" she will be very fond of and good tes, at that.

She will first be attracted to Red Rose Tea by the which will remind her of the "Red Rose" of "Old

And when she tries it she will again be reminded of the "Homeland", for she will find Red Rose Test the same kind of Tea that she has used at home—a rich, full-slavored blend; consisting chiefly of ASSAM teas grown in British-owned plantstoom in northern India.

Red Rose Tes is sold always in sealed packages.

Heavier trucks than the Maxwell there are. They cost more to buy—from 100 to 400 per cent more. They cost more to operate.

Yet they can do only 10 to 20 per cent more work. Obviously they do not give the same value as the

For the Maxwell is a ton-and-a-half job—will carry four out of every five loads conveyed by horse or motor. Ten foot loading space—big enough for a ton-and-a-half of sewer pipe, fifty bushels of wheat, or an overload of hay.

Lighter trucks than the Maxwell there are—trucks that take more time, more fuel to handle the same load as the Maxwell. And they lack the complete equipment of the Maxwell.

Even trucks that have the same capacity as the Maxwell cost several hundred dollars more. And specification data will prove to you that the Maxwell is through and through a better job.

The best scientific engineering brains on the continent have developed the Maxwell. It is not a mere assembled job. Quantity production on a sound manufacturing basis has kept its cost amazingly low.

RED CROSS DRUG STORE, J. S. McKEOWN, Prop. at the best drug store in every town and city in the country

No edge without stropping

Provide a barber with a number of the highest-priced razors obtainable and stipulate that he must use a new razor on every individual customer and he would re-fuse if he valued his trade.

Stropping, you see, is needful because it removes the roughness of the new blade and re-aligne the sea-ville edge that thaving produces; because it keeps the blade free from rust; and because it is the only means that will provide you each monthing with a keen edge for shawing.

You don't take the blade out to aharpen it; nor do you take the AutoStrop Rasor spart to clean it. From first to last-stropping, shaving and cleaning—you never need to remove the blade from the razor.

You can get an AutoStrop Razor anywhere—razor, strop and 12 blades, complete, in attractive case, for \$5.00.

Good Looks and Long Wear Knitted into Stockings

Fine appearance and durability are knitted right into Buster Brown Stockings. Our employees have had years of special training in knitting Buster Brown hosiery.

We use ermi-long year. We spin it ourselves to be sure it's right. We designed these stockings with a two-ply leg and three-ply heel and toe-to stand the hard usage of the average boy. Because we do all these things, Buster Brown Stockings are harder-wearing. They make Iewer trips to the mending basket. They cost loss in the end.

Special attention is given their appearance, too. They are exceptionally well-made and well-fitting. Try your boy with a pair and get his opinion.

Aak your dealer for "Buster Brown" durable hosiery. Sold everywhere.

Thro' Service We Grow N.C.14 "Willard Equipped" on First Trans-Atlantic Flight

"Our Engines worked perfectly," said Commander Read of

Ten Stork, Willard Batteries, with Threaded Rubber Insu-lation, were on the NiCo-4 as she blazed the new trail and made history. Four batteries were in use and six were held in reserve and never needed.

Absolute dependability and constant performance were essen-tial—so Willard Batteries were chosen, and lived up to their re-putation.

Every unit on the N.C. A flying boat had to pass a thorough inspection and rigid test before it was used. Willard Batteries were not chosen on reputation alone—they were selected because they earned and continued to earn that regutation.

Our customers will be interested in this fact. Everyone is talking about the wooderful feat of the N.C.-4, and we are proud of the part that Willard Batteries played in it.
